## **ENVIRONMENTAL PROTECTION AGENCY**

### **40 CFR Part 52**

**[EPA-R07-OAR-2019-0315; FRL-9994-57-Region 7]**

### **Air Plan Approval; Missouri; Compliance Monitoring Usage**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to approve revisions to the Missouri State Implementation Plan (SIP) received on February 15, 2019. The submission revises a Missouri regulation that establishes alternate monitoring methods for certifying compliance and alternate methods to establish whether a violation has occurred at a source.

Specifically, the revisions to the rule: clarify that there are no definitions specific to the rule; add language clarifying the date of an incorporation by reference (IBR) and where the public can get a copy of the IBR; add a state rule to the list of state rules that presumptively identify credible testing, monitoring, or information gathering methods; and make other minor edits.

These revisions are administrative in nature and do not impact the stringency of the SIP or air quality. Approval of these revisions will ensure consistency between state and federally-approved rules.

**DATES:** Comments must be received on or before **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

**ADDRESSES:** You may send comments, identified by Docket ID No. EPA-R07-OAR-2019-0315 to <https://www.regulations.gov>. Follow the online instructions for submitting comments.

*Instructions:* All submissions received must include the Docket ID No. for this rulemaking. Comments received will be posted without change to <https://www.regulations.gov/>, including any personal information provided. ## **I. Written Comments**

Submit your comments, identified by Docket ID No. EPA-R07-OAR-2019-0315, at <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from Regulations.gov. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

## **II. What is Being Addressed in this Document?**

The EPA is proposing to approve revisions to the Missouri SIP received on February 15, 2019. The revisions are to a state rule at Title 10, Division 10 of the Code of State Regulations, 10 CSR 10-6.280 *Compliance Monitoring Usage*, which establishes alternate compliance certification methods for monitoring requirements.

The revisions are administrative in nature and do not impact air quality. The EPA's analysis of the revisions can be found in the technical support document (TSD) included in this docket.

### **III. Have the Requirements for Approval of a SIP Revision Been Met?**

The state submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The state provided public notice of the revisions from June 15, 2018, to September 6, 2018, and held a public hearing on August 30, 2018. The state received and one comment; the comment was from the EPA and was a general comment regarding SIP revisions. No changes were made to the proposed rule text in response to the EPA's comment. The SIP revision submission meets the substantive requirements of the CAA, including section 110 and implementing regulations.

#### **IV. What Action is EPA Taking?**

The EPA is proposing to amend the Missouri SIP by approving the State's request to revise 10 CSR 10-6.280 *Compliance Monitoring Usage*. Approval of these revisions will ensure consistency between state and federally-approved rules. The EPA has determined that these changes will not adversely impact air quality.

The EPA is processing this as a proposed action because we are soliciting comments on the action. Final rulemaking will occur after consideration of any comments.

#### **V. Incorporation by Reference**

In this document, the EPA is proposing to include regulatory text in a final rule that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the Missouri Regulations described in the proposed amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through [www.regulations.gov](http://www.regulations.gov) and at the EPA Region 7 Office (please contact the person identified in the "For Further Information Contact" section of this preamble for more information).

## **VI. Statutory and Executive Order Reviews**

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866.
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and

will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).
